D. Description & Justification**DESCRIPTION**

This PDF provides a consolidated estimate of funding for the acquisition of land and rights-of-way for previously approved projects and new projects, as needed. Expenditures are programmed based upon anticipated schedules and are required for the completion of the specific projects listed on the next page. These costs do not include purchases which have already been completed.

JUSTIFICATION**Plans & Studies**

Acquisition needs are determined by WSSC and are based upon facility planning efforts, alignment studies, field surveys, realignments required by other agencies, or requirements identified within the Development Services Process (DSP).

Specific Data

Consolidation of expenditures for land and rights-of-way acquisitions provides flexibility in expending funds in a specific fiscal year and permits WSSC to respond to the uncertainty of project specific implementation schedules. This format change alleviates this restriction, especially for DSP projects, which depend upon actions of the applicant. Other considerations include the accommodation of unpredictable delays for extended community outreach which impacts the timing of a planned purchase, unanticipated rights-of-way requirements for approved projects due to minor alignment changes identified late in the design phase, and the need to assure WSSC an equitable negotiation position by avoiding project specific cost displays prior to contacting property owners.

Cost Change

Not applicable.

STATUS Various Stages of Planning & Design**OTHER**

The project scope has remained the same. The expenditures shown in Block B are estimates only and may change based upon actual negotiations. Expenditure estimates for FY'02 are information only and the funding was approved in the Adopted FYs 2002-2007 CIP. When purchases are complete, the actual cost will be displayed in the expenditure schedule on the appropriate project description form elsewhere in this program.
